Gateway is now well established in the New Zealand secondary school system and health and safety knowledge is an important asset for any student transitioning from school into the workforce.

Therefore providing effective and relevant training, not just tick the box training, is vital. FETS have teamed up with **PJ Safety Solutions** and we are committed to ensuring your students have the Health and Safety knowledge to stay safe in the workplace and what to do if they are faced with an unsafe situation. This will give them confidence to speak up if they feel any situation is dangerous.

All **FETS** instructors have an emergency response background and have responded to very real life situations, many of which could have been avoided. They are **NOT** classroom trained instructors but people with a passion for ensuring their students have every opportunity to avoid unsafe workplace situations.

**Paula Jonker (PJ Safety Solutions)** is a NZQA approved sub-contractor for FETS providing an excellent teaching alternative for your students.

Students are also welcome to attend our public courses for **Safe Working at Height** 17600 and 25045, **Fire Extinguisher** 3271 and 4647 or **Emergency Warden** 18408 here in Upper Hutt.

Call either **Amber** or **Ross** to discuss your training needs on **04 9392669** or **0800 338 748** with FETS or **Paula Jonker** directly on **021 757 166**.
